

Grade 3

Scavenger Hunt:

- Indigenous knowledge is passed down through oral history, traditions, and collective memory. We are honoured to have several Ktunaxa displays in our museum. Bring your class and explore our exhibits! They will complete a curriculum based scavenger hunt which includes oral history, traditional stories, and artifacts as evidence about past First Nations cultures, biodiversity in the local environment, and major local landforms.
- The scavenger hunt will be conducted in small groups and the students will work together to answer the questions.
